PROFESSIONAL SUMMARY

Third year Information Technology student specializing in database development, data analytics, and full-stack engineering. Strong foundation in backend architecture, database development, and UI/UX design, with hands-on experience developing functional applications through collaborative projects and technical coursework.

EDUCATION

University of San Carlos

June 2024 — Present

Bachelor of Science in Information Technology

Expected 2027

Relevant Coursework: Data Structures and Algorithms, Linux Operating System, Network Security, Networking I & II, Information Management, Web Development, Systems Analysis and Design, Information Assurance and Security

PROJECTS & EXPERIENCE

Dimetrix — Power Outage Mapping & Analytics Platform [Link](#)

- Built a **geographic incident monitoring platform** for tracking power outages, transformer incidents, and scheduled brownouts through an interactive map.
- Implemented **incident reporting, admin verification, status tracking, location-based filtering, and historical records** to improve data reliability.
- Developed **area-based analytics and outage trend visualizations** to identify affected regions and recurring incidents.

Tech: Next.js, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Prisma, Auth.js, Zod, Leaflet, Vercel

Caytori — Multi-Company IT Support & Ticketing Platform [Link](#)

- Developed a multi-tenant SaaS platform enabling companies to create, assign, prioritize, track, and resolve IT support tickets within isolated workspaces.
- Implemented role-based access control, audit logs, activity history, file attachments, and ticket analytics to support enterprise IT workflows.
- Built resolution-time tracking, search/filtering, and performance insights to help IT teams monitor support efficiency.

Tech: React, TypeScript, Vite, Tailwind CSS, shadcn/ui, ASP.NET Core, C#, Entity Framework Core, PostgreSQL, JWT

AbyssalFlow — Immersive Menstrual Cycle Tracking Mobile App [Link](#)

- Built a **cross-platform mobile application** for cycle, symptom, and mood tracking with personalized predictions and reminders.
- Designed a **dynamic ocean-inspired UI** that adapts to the user's cycle phase while maintaining a data-driven tracking experience.
- Implemented **historical cycle data, personalized insights, reminders, and secure cloud synchronization**.

Tech: React Native, TypeScript, Expo, Expo Router, Supabase, PostgreSQL

Noir Detailing — Carwash Booking & Subscription System [Link](#)

- Developed a booking platform supporting **one-time services and subscription-based memberships**, with vehicle and customer management.
- Implemented **availability checking, bay allocation, capacity management, booking limits, payment verification, and automated notifications** to prevent scheduling conflicts.
- Built administrative tools for **appointment, subscription, and customer management**.

Tech: Vue.js, Node.js, Express.js, TypeScript, Prisma, PostgreSQL, JWT, Nodemailer, PayMongo, Neon.

EXTRACURRICULAR ACTIVITIES

Liaison Officer | Computer Information and Sciences Council (2026 – 2027)

- Manages communication networks between student groups and external organizations.

Member | Google Developer Groups on Campus (2025 – 2026)

- Participated in technical workshops to enhance development skills.

TECHNICAL SKILLS

- **Programming Languages:** C, HTML, CSS, JavaScript, TypeScript, Python, PHP, SQL, Bash
- **Databases & Backend:** PostgreSQL, MySQL, MongoDB, Supabase, Relational Database Design, REST APIs
- **Frameworks & Tools:** React Native, React, Next.js, Laravel, Tailwind CSS, Node.js, Git, GitHub, Docker, Linux, Figma, Microsoft Excel
- **Core Competencies:** Database Development, Data Analytics, Backend Architecture, UI/UX Design, Full-Stack Web Development, CRUD Applications, Functional Testing, Manual Testing

AI-ASSISTED DEVELOPMENT & WORKFLOW

- **AI Development Tools:** Claude Code, OpenAI Codex, Google Antigravity, GitHub Copilot
- **Workflow:** AI-assisted coding, codebase analysis, debugging, refactoring, API development, documentation, and development workflow automation

CERTIFICATIONS

- Cisco Networking Academy: Introduction to Networks (ITN)
- Cisco Networking Academy: Switching, Routing, and Wireless Essentials (SRWE)
- Accenture Skills To Succeed Academy
